Jhumri Telaiya, Koderma

ASSIGNMENT (2020– 2021)

Class - IX

Subject – CHEMISTRY

Assignment questions based upon online class

1. Carbon dioxide is a gas. Justify the given statement by two reasons.
2. What is meant by particulate nature of matter? List three characteristics of particle nature of matter.
3. Define: - (i) Melting point.
(ii) Boiling point.
4. Explain how three states of matter arise due to the variation in the characteristics of the particles.
5. Draw a flow sheet diagram to illustrate inter-conversion of three states of matter. Name the process of each interconversion.
